May 22, 1978

Welcome to New England Rare Coin Galleries' first special mailer!

What's the occasion? Only that we feel a compelling responsibility to continually improve our client service in any way possible. We know that means maintaining the most extensive inventory of quality rare coins available in the marketplace. We know it also means using our resources to actively search out any specific coins you might need to complete your collection. But we feel that these services are just the basics.

As one of the leading forces in numismatics today, we believe we have an obligation to give you more.

Collecting rare coins is not just a rainy-day hobby; it should be enjoyable, educational and, hardly least, profitable. In that light, we're introducing a number of new features to our monthly mailer.

Some of these features are intended to be informational. For example, if you're in a high income tax bracket, our question and answer forum on the advantages of Keogh and I.R.A. plans should be of considerable interest. Rare coins can be used as part or all of your \$7,500 yearly contribution to a new

Keogh plan, or can be incorporated into an existing Keogh. Not discussed, however, in this article are the opportunities for rare coin investment in corporate pension or profit sharing plans. If you'd like more information on these possibilities, please give us a call; we'd be happy to answer any questions you might have.

Some of our new features are designed to make the selection of the perfect coin for your collection or investment portfolio easier and more accurate. Our photographs, in both black and white and color, show you exactly what the coin you order looks like. There's also a two-page offering of specially-selected gold type sets, a very special opportunity regarding membership in the American Numismatic Association, and lots more.

If you're in the New England area, drop in and visit our new, totally unique gallery located at 89 Devonshire Street in the heart of Boston's financial district; we've got everything for your collecting or investing needs. We hope you enjoy our new mailer format, and we welcome your comments.

This Ad Answers Two Important Questions.

Question 1. Why invest in rare coins?

Very simply, because a demonstrated growth rate of 59% per year for the last five years on a representative portfolio of uncirculated coins is pretty hard to beat in any of the traditional investment media. **And**, this 59% per year appreciation rate is just for the highest mintage "type" coins, as listed in **The Guidebook of United States Coins**, and doesn't include statistics for the better quality, rarer coins.

Current uncertain economic conditions are driving many investors to seek more secure, lucrative alternatives to the stock market and commodities exchanges, and many professional financial advisors are finding that rare coins are an extremely attractive alternative. Rare coins are "the number one hedge against inflation," according to Franz Pick (BARRON'S). D. Reginald Tibbetts of AMERICAN COLLECTOR believes that "coins, especially rare coins, generally outperform other types of investments and a collector has the tangible joys of gathering and admiring a coin collection. Coins do well in recessions and inflationary periods." Max Liebler of Shearson Hayden Stone, writing in COMMODITIES magazine noted that, "in many instances, investing in good rare coins has been found to have a greater profit return potential than investing in gold bars or modern issue gold coins."

Largely in response to the pervasive disillusionment with the future of stocks and bonds, the coin market is presently experiencing one of the most incredible booms in its history. As more and more investors enter the market, the market gets stronger and stronger — and this trend is, we feel, likely to continue for quite some time.

With the decline of the dollar on the international market, and erratic economic conditions at home, think about the precarious behavior of your stock market investments. And consider how the 6% yearly inflation rate is affecting your savings account. It's no wonder that a 59% per year appreciation rate has made rare coins one of the most popular alternative investment media.

THE SHELDON GRADING SYSTEM

At New England Rare Coin Galleries, we believe that using accepted standards of grading benefits both buyer and seller. Our grading system is patterned after Dr. Sheldon's quantitative scale which he developed to

grade Large Cents. His system has been almost universally adopted in recent years and is now used to describe all denominations and series from Colonials to Pioneer Gold. The numbers used in this grading system are as follows:

<i>Poor</i>	1
<i>Fair</i>	2
<i>About Good</i>	3
<i>Good</i>	4, 6
<i>Very Good</i>	8, 10
<i>Fine</i>	12, 15
<i>Very Fine</i>	20, 25, 30, 35
<i>Extremely Fine</i>	40, 45
<i>About Uncirculated</i>	50, 55
<i>Borderline Uncirculated</i>	55/60
<i>Uncirculated</i>	60
<i>Choice Uncirculated</i>	60/65
<i>Gem Uncirculated</i>	65
<i>Superb Uncirculated</i>	65/70

As an example of how this works, a coin graded Unc. (60) may exhibit handling marks, weakness in strike, off color, etc. but **NO WEAR**. In other words, an about average piece for the issue. A slightly better piece with attractive color and a minimum of imperfections would be graded Ch. Unc. (60/65).

Occasionally, a noticeably better coin for the issue will come on the market. This may be classified as Gem Unc. (65) and exhibit virtually no imperfections. Once in

a great while, a superb coin will earn the grade 65/70. This would be an extremely high quality coin usually found in the collections of connoisseurs.

However, far more important than the actual system itself, is the consistency with which the system is employed. Coins are not only graded with exceptional accuracy, but are described with regard to depth of strike, defects, color, lustre, and other important factors. Knowledgeable buyers have an unusual degree of confidence in our grading and attribution.

AN INCREDIBLE 46% PER YEAR!*

If you had invested in gold bullion in 1967, you would have experienced a 41% per year return on your money. But, did you know that according to the "Redbook" guide to U.S. coins, the appreciation pattern of a gold type set has **surpassed** that of gold bullion by 5% per year! Even with the phenomenal increase in bullion levels (from \$35 to \$180 per ounce over this time period) gold type sets have still been a better buy!

12 Piece Gold Type Set (highest mintage dates, Uncirculated-60 coins)

We have always felt that gold type sets are a **very** lucrative investment — and for a number of solid reasons. When it comes time to sell, a complete set will usually generate more interest from the collector market. This is because assembling a set piece by piece takes a great deal of time, and in many cases the quality and appearance of the individual coins tend to vary widely if they come from different sources. Therefore, when a properly selected, attractive set is offered, it is an exciting collector find, and usually brings a high premium.

Gold has a rich numismatic history that began with its use as a monetary currency as early as the 4th century B.C. Gold has, in fact, become almost synonymous with "money" — with solid buying power. With

today's fiat U.S. dollar no longer backed by gold, people are increasingly attracted to the metal for its longstanding intrinsic value. This tendency to opt for tangible items with historically established value always becomes more pronounced during periods of economic uncertainty, such as we are presently experiencing. And gold is always at the top of the list of investment commodities during such times.

Because investors are so familiar with gold's intrinsic value (perhaps from trading experience in gold options and contracts), they are much more likely to be attracted to gold pieces when their investments diversify into a rare coin portfolio. It only follows, then, that gold type sets are an attractive medium for these people, especially as they've demonstrated a 46% per year appreciation rate!

Another important factor that contributes to the investment potential of the gold type set is that the majority of the included coins are relatively inexpensive to acquire. This situation enables you to purchase coins which will always have a broader range of buyers than prohibitively expensive items. Obviously, there are more collectors and investors in a financial position to buy a \$200 coin than a \$2000 coin.

Finally, a gold type set represents a highly desirable, **diversified**, package. A complete set contains a specimen of every design type and denomination, from the \$1 gold piece to the \$20 Double Eagle. (Even further, though, we recommend that coins of other metals be purchased in addition to the gold type set if you are buying coins for investment purposes.)

A complete gold type set, then, offers:

- at 46% per year, a higher past rate of appreciation than gold bullion,
- the appeal of a complete, uniform set,
- the psychological and historical power of gold,
- ingrained investor familiarity with the metal,
- tendency of gold to do well in times of recession, and
- diversification of investment.

It's a hard package to beat!

As with any coin purchased from New England Rare Coin Galleries, the authenticity of these gold type sets is completely guaranteed and, equally as important, our **grading** is unequivocally guaranteed. We will repurchase directly, or sell through auction, any coin purchased from us at the **same** grade you bought it as. Our reputation for grading accuracy and consistency is unparalleled — and we stand proudly behind our reputation.

The Owl and the Grasshopper

A Modern Fable

Once upon a time, there were two building contractors named Ollie Owl and Gary Grasshopper. They were partners in a prospering firm on the north side of Chicago, and each made \$50,000 a year.

They were both very prudent with their money, and even after living expenses and taxes, each had \$9,500 left over each year. Both men allowed \$2,000 a year for their vices. Ollie Owl had a rare tobacco blend imported from the Turkish Isles. Each year he spent \$2,000 on this mixture that he loved called "Kiwisalodectamathorphansmoke".

Gary Grasshopper was equally frivolous, and each year spent \$2,000 on a rare South American bean that could be brewed into an expensive beverage that he loved called "Coffee". Each took his \$7,500 that was left over and invested it.

Gary Grasshopper bought mutual funds with his money. Because he had a very smart broker, his mutual funds did much better than average. Over the next 35 years, he made 9½% per annum on his investment.

Ollie Owl put his \$7,500 into a Keogh Plan each year, then used the Keogh money to buy choice quality rare coins. Ollie knew that quality rare coins had shown a 25% per year increase over the last 20 years and that a publication that he had borrowed from Gary Grasshopper called *Barron's* had said that coins were the "number one hedge against inflation."

Since Ollie used the Keogh Plan, his \$7,500 investment was *tax deductible*. The money he saved on his tax deduction, 36% a year, or \$2,700, was put into the same mutual funds that Gary had purchased. Ollie also sold coins now and then from his Keogh, when his coin investment counselor recommended it. He used half the profits to buy mutual funds, and the other half to buy more coins. After 35 years, he owned the same number of mutual funds that Gary Grasshopper owned, plus owning all his own coins.

When he retired, Gary Grasshopper was a very rich man. How rich? He was worth nearly one-third as much as the richest man on the north side of Chicago! The richest man on the north side of Chicago was Ollie Owl.

Moral: Read the next page. Ollie Owl did.

KEOGH AND I.R.A.

A question and answer format for coin collectors and investors.

Q. What is Keogh?

A. The Keogh Plan is a tax shelter provided by the Federal Government to encourage financial security for the individual at retirement age. All self-employed and some employed individuals are eligible.

Q. How does it work?

A. Money is deposited into a Keogh Account. You can deposit up to \$7,500 a year or 15% of your total taxable income, whichever is less. This money is tax deductible. At the age of 59½ years, it can be removed from the Keogh account. Dispersal must begin by age 70½ years.

Q. Can it be removed before the age of 59½ years?

A. Yes, but there is a 10% tax penalty on the money and the right to use a Keogh is lost for five (5) years. However, if you become totally disabled, you can remove the money at any time.

Q. How can Keogh benefit the coin collector and investor?

A. The money placed into a Keogh account can be used to purchase rare coins. The entire amount deposited (up to \$7,500 per year) can be used for purchasing rare coins.

Q. And it's still tax deductible?

A. Yes.

Q. Let me give you a hypothetical situation. I make \$50,000 a year. Therefore, I can put \$7,500 a year into my Keogh account. I then purchase a coin for investment that costs \$6,000. If I pay for this coin out of my Keogh account, is that \$6,000 still tax deductible — just as it would be if I had given the money away for tax deductible purposes, or spent it on doctors' bills, or any other legitimate tax deduction?

A. Yes. You get the deduction and *still have the money!*

Q. When does the government get its tax from my Keogh income?

A. The tax you have to pay is deferred until the Keogh is dispersed.

Q. If I put \$5,000 a year into Keogh for three years, then decide to buy coins, can I use the entire \$15,000 at one time for coin purchases, or is my limit \$7,500 (or even \$5,000)?

A. The entire \$15,000 can be used at one time.

Q. If I lose my Keogh eligibility through a job change, what happens to my money and/or coins?

A. They are "frozen" assets (you cannot deposit or withdraw funds) until you become eligible again or until you reach 59½ years of age. You can, however, still buy and sell with funds already in your Keogh.

Q. Does my Keogh draw interest?

A. Your Keogh draws interest, compounded daily, until such time as you direct it to be placed into coins or other investments.

Q. How important is Keogh to my future? Do I really want to set aside 15% of my income for Keogh?

A. First of all, you don't need to set aside the full 15%. The 15% is merely the maximum (or \$7,500). You can put in 10%, 5%, or a set amount. It's completely up to you. How impor-

tant is Keogh? Here are some staggering statistics. The Social Security Administration in Washington says that *only* 2% of the U.S. population is self-sustaining at age 65, and that only 15% have as much as \$250 at age 65!

An interesting aside — A LIAMA Cooperative Research Project showed that 93% of the men at age 65 who failed financially said it was because of lack of a plan. Keogh provides that plan, as well as the incentive — *Tax Deduction!*

Q. Where are my Keogh coins stored?

A. At a bank that offers the Keogh Rare Coin Plan. New England Rare Coin Galleries has located banks for you on the East coast, West coast, and in Central United States that will handle your Keogh Account.

Q. Is New England Rare Coin Galleries affiliated with these banks in any way?

A. No.

Q. Can I use my Keogh as collateral for loans?

A. No. It is illegal to use a Keogh as collateral.

Q. Since I cannot make Keogh withdrawals without tax penalty, how can I make the Keogh money "work" to my best advantage?

A. You can buy and sell within your Keogh Plan as long as all revenues are placed back into the Keogh. For instance, if you buy a coin for \$9,000 and in three years can sell it for \$21,000, you may, if you wish, sell the coin. However, the entire \$21,000 must then be placed in the Keogh.

Q. Can I use this \$21,000 to buy more coins?

A. Yes. You can buy and sell as many times as you wish.

Q. Will the \$12,000 profit be deducted from my future deposits?

A. No. You can continue to make the full deposit allowed by law each year.

Q. Is the \$12,000 profit tax deductible?

A. No, but it will not be taxed until the Keogh is dispersed. In the meantime, you can use the \$12,000 to buy coins or other investments just the same as you can use money regularly deposited.

Q. Partnerships are eligible for Keogh, but can these partnerships pool resources to purchase coins?

A. Yes. For instance, four partners can each use \$5,000 to purchase a \$20,000 coin (or 20 \$1,000 coins for that matter).

Q. What is the Keogh deadline?

A. A Keogh cannot be opened after December 31. However, if the Keogh is opened by that date, deposits can still be made until April 15, or until your income tax is filed.

Q. That prompts another hypothetical question. On February 17, I find out I owe the government additional taxes over what has already been withheld. Is it true that I can now put money into my Keogh account, take the deduction and owe the government less?

A. Yes. The important thing is that the extension allows you the time to find out what Keogh contribution will serve your purposes best.

Q. How has coin investment compared to bank interest over the last 20 years?

A. Coins have averaged 25% increase per year over the last 20 years. This statistic is for rare coins of excellent quality, the type of coin that we would recommend for your Keogh, and the type of coin we have always recommended. While past performance is no assurance of future growth, 25% is in no way a ceiling on your possible earnings. A customer of ours purchased a coin in the spring of 1976 for \$3,100 totally on our recommendation. Three months later, a major dealer offered \$7,500 for the coin. A \$4,400 profit on a \$3,100 cash outlay in three months equals 682% per annum increase! While this is an isolated example, it is certainly *not* a unique one. There are *no* isolated examples in the history of banking where someone made that kind of profit in a passbook savings account.

Q. You said this program was for self-employed people, but that some employees are eligible. What employees?

A. An employee who has worked for a company full time (1,000 hours per year) for three years and has an employer with a Keogh program is eligible providing he is not a member of another retirement plan.

Q. If I have already set up a Keogh or I.R.A. account, can I simply begin buying coins with the money that has accumulated?

A. If your account was established with a bank that allows you to purchase rare coins, then you certainly may. However, most banks do not have very flexible Keogh and I.R.A. accounts. Therefore you'd have to set up another Keogh plan with one of the banks which we have located that *does* accept

coins. You may then "roll over" the funds you have accumulated in your initial account to the new bank. The banks that we have located for you allow many forms of investments so you may wish to purchase some coins, stocks, bonds, C.D.'s, or simply leave a portion of the funds at savings account interest.

Q. What about employees who are not eligible for Keogh?

A. The Individual Retirement Account (I.R.A.) is available to persons not eligible for Keogh and who are not members of another retirement plan.

Q. How is I.R.A. different from Keogh?

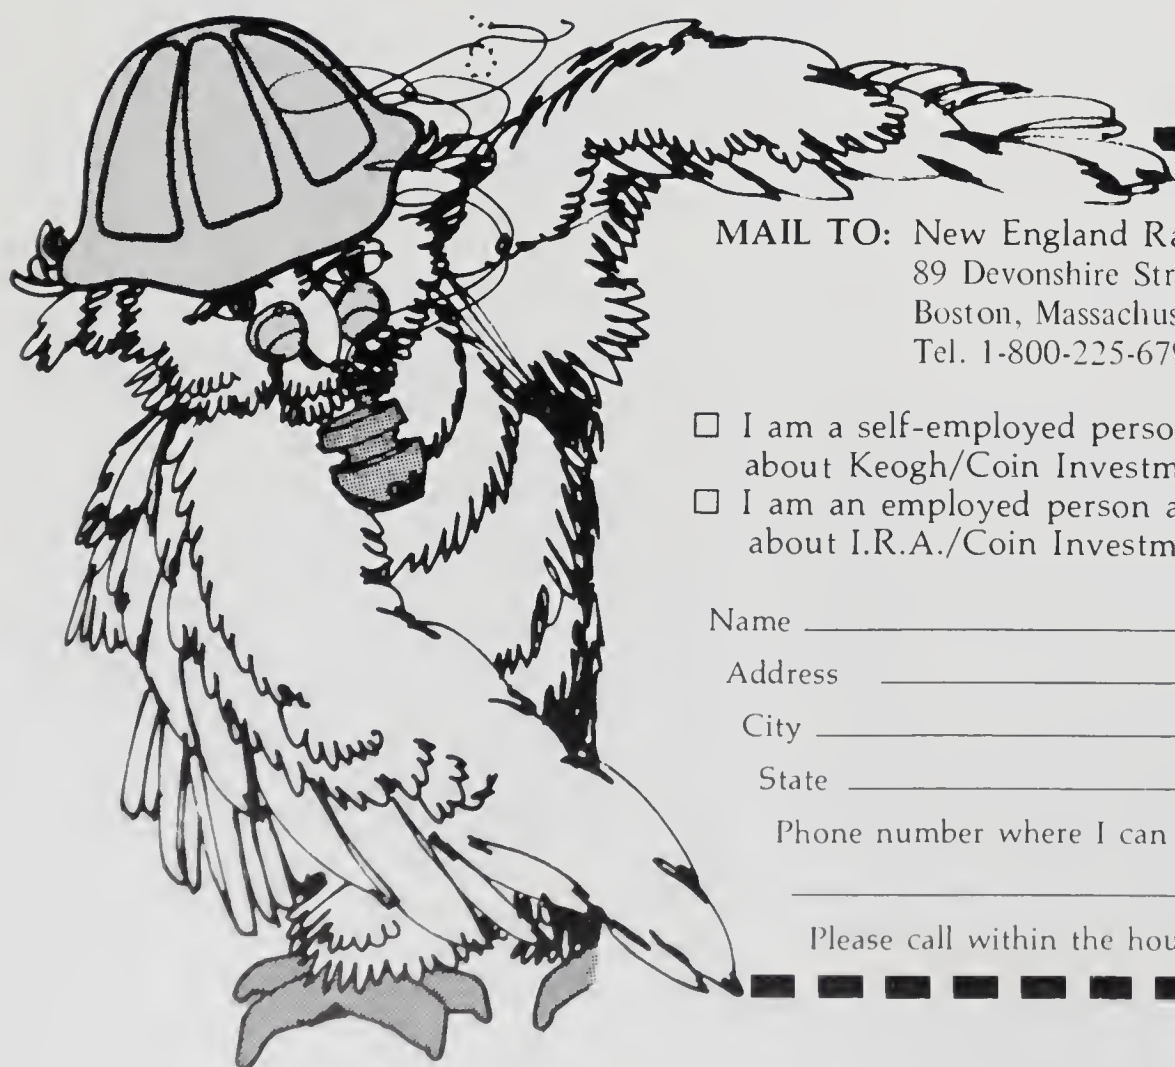

A. The limit on the tax deductible deposits is 15% or \$1,500 (whichever is less) per year for the I.R.A. This is \$6,000 less than is available through Keogh. In addition, deposits cannot be made after February 15 of the following year for deductions from that year's taxes (with Keogh you have until April 15 of the following year).

Q. I.R.A. offers all the *other* benefits of Keogh, doesn't it?

A. Yes. I.R.A. is still an excellent tax shelter and a \$1,500 maximum deduction is still very worthwhile. Of course, I.R.A. *can* be used for coin purchases.

Q. New England Rare Coin Galleries can provide me with the coins, the bank, and all information to set up a Keogh or I.R.A. account — correct?

A. Absolutely. Just call or write New England Rare Coin Galleries. We will provide you with any additional information you need to take advantage of the finest tax shelter/investment program ever offered.

Let us pay your dues!

The American Numismatic Association, founded in 1891, is the largest and most active organization for coin collectors in the world. An ANA membership makes it easier for you to make a serious study of the area of numismatics that interests you — to build up a real knowledge of your specialty while you are building your collection.

We at New England believe that membership in the ANA will enrich your collecting or investing experience. In fact, we've found that the services of the ANA are indispensable to the serious numismatist. Since we feel so strongly about this, we'd like to make your introduction to the ANA as easy as possible.

If you place an order with us through this mailer for \$150 or more, we'll pay for your application fee and first year's Regular Membership dues to the ANA (a \$17 value). Just complete the attached application form and return it with your order; we'll take care of the rest.

Don't miss this opportunity to take advantage of the special features of an ANA membership:

- "The Numismatist", the Association's official magazine, is mailed free each month to all members except Associates. You will read of newsworthy men and collections, new coin issues of the world, new books, fakes that can hurt your collection, and editorial comments and Association news.
- A copy of the 48-page Introduction to Numismatics, and the Dictionary of Numismatic Terms.
- Use of the largest circulating numismatic library in the world. The only charge for borrowing reference books is the postage paid round-trip from Colorado Springs.
- A museum with displays and study collections is located in the Colorado Springs headquarters. Visitors are welcomed.
- Several insurances, such as on numismatic collections, exhibits, hospital money plan and life.

AND MUCH MUCH MORE!
